LCG Wins National Institute of Neurological Disorders and Stroke Information Systems & Information Technology Services Support Contract

ROCKVILLE, MD (July 19, 2022) – LCG Inc today announced a multi-year contract to support the National Institute of Neurological Disorders and Stroke (NINDS), part of the National Institutes of Health, in providing Information Systems & Information Technology Services Support.

“This award exemplifies the confidence our customer places in LCG as a result of the outstanding performance of our NINDS team,” said Conrad Kenley, President & CEO of LCG Inc.

LCG continues a NINDS partnership to provide end-to-end IT services, enabling NINDS to further its mission. LCG brings their extensive knowledge and client experience to provide the following services:

- Modernization and optimization of infrastructure services (both on-premises and cloud)
- IT support services for onsite and remote end-users
- Security operations and information security assurance for all NINDS systems
- Application development services with DevSecOps on custom applications
- SharePoint and M365 platform-based collaboration solutions
- ServiceNow IT service management solutions and customization and configuration of COTS products for NINDS use.

About the National Institute of Neurological Disorders and Stroke (NINDS)

The National Institute of Neurological Disorders and Stroke is a part of the National Institutes of Health. It conducts and funds research on the brain and nervous system disorders. NINDS’ mission is to reduce the burden of neurological disease—a burden borne by every age group, every segment of society, and people worldwide.

About LCG Inc

LCG, a leading provider of precision technology solutions and services in Digital Government, Managed Infrastructure & Operations, Application Services, and Grant Services brings precision technology to achieve mission capability and performance success. Our approach centers around providing technology as enablers to deliver government services. It has been a priority of our firm to bring emerging technology capability to transform how the government operates, collaborates, and interacts with citizens.
